

JSCE 19th International Summer Symposium

*in conjunction with JSCE 72nd Annual Conference
at Kyusyu University, 11th-13th September 2017*

JSCE 19th International Summer Symposium consists of paper presentations, a half day workshop. The main objectives of the Symposium are to provide a platform for young engineers to examine technological advances and issues, to share their ideas and research projects, and to encourage them to find research partners and teams across languages and distance.

Place: Kyusyu University, Fukuoka

Date: 11th and 12th September, 2017

Schedule (tentative):

Day 1 st (11 Sep.)	09:30 – 12:30	Paper presentation 1
	13:30 – 17:30	Workshop (<i>See below</i>)
	17:30 – 19:30	Networking Reception
Day 2 nd (12 Sep.)	09:30 – 12:30	Paper presentation 2

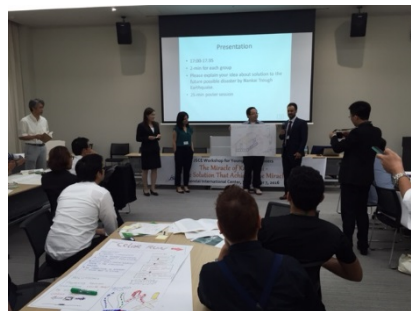

Workshop on

Innovative Construction Methods

A Case of Cut-and-Cover Tunneling Method

Innovation is required in every industry, as is the construction industry. In this workshop, participants propose an innovative construction method by taking the cut-and cover tunneling method as an example. Through the review and analysis of existing methods, ideas to solve the current problems are discussed in group work. Finally, each group presents the innovative construction method.

* This workshop is supported by Dr. Komatsuzaki, The University of Tokyo
