

2023 Workshop for Global Civil Engineers

"The Role of Civil Engineering in Achieving the SDGs"

The Workshop is intended to increase participants' awareness of sustainable development and the Sustainable Development Goals (SDGs), and to challenge them to think about how civil engineering (CE) can contribute to achieving the SDGs and realizing a more sustainable world. The lecture in this Workshop provides basic knowledge about SDGs .

Participants of any age, nationality, and gender who expect to deepen their understanding of the SDGs are welcome.

We are looking forward to your participation.

 15 September 2023
