

JSCE 25TH INTERNATIONAL SUMMER SYMPOSIUM

What is the International Summer Symposium (ISS)?

The main objective is to offer young civil engineers a interactive hands-on learning opportunity, in which they share their research projects, exchange ideas, and network with each other.

The ISS consists of ①paper presentation, and ②a half-day workshop.

2023 Workshop for Global Civil Engineers

"The Role of Civil Engineering in Achieving the SDGs"

This Workshop aims to increase participants' awareness of sustainable development and the Sustainable Development Goals (SDGs), and to challenge them to think about how civil engineering (CE) can contribute to achieving the SDGs and realizing a more sustainable world.

Fundamental knowledge about sustainable development and the SDGs will be introduced, and participants will work together to explore how they can apply that knowledge to the civil engineering field. People of all ages, nationalities, and genders are welcome - all you need is a desire to make the world a more sustainable place. We are looking forward to seeing you there!
